SHORES OF THE POLAR SEA

EDWARD L. MOSS

The Arctic Expedition of 1875 left England on 29th May, crossed the Atlantic to Davis Straits in a succession of storms, and entered the Arctic regions on 4th July. It sailed with orders to 'attain the highest northern latitude, and, if possible, reach the Pole.' This is the story of the crew of the HMS Alert, on its voyage of exploration up the Baffin Sea and toward northern Greenland.
